### TITLE INSURANCE – AN EXPLANATION

Title Insurance is a form of insurance policy that protects purchasers from a number of potential risks. These risks are usually matters which are not covered by a traditional lawyer's due diligence. Briefly summarized, these added protections include the following:

- 1. Defects that would be revealed by a new Survey.** In the absence of an existing survey, Title Insurance may be ordered in lieu of a new survey. Please note that this assumes that a new survey must be ordered. If the vendor is able to provide an older survey or if the applicable City Hall has a survey certificate, these may usually be utilized. Title Insurance also insures a defect that would be revealed by an existing survey such as an encroachment of a neighbor's building onto the adjacent property. The most famous example is a swimming pool located on a residential property in Calgary which has 14 Easements, Rights-of-Ways or Covenants some of which affected the pool. The Lender was able to provide financing based on the strength of the Title Insurance Policy.
- 2. Fraud, Forgery or False Impersonation.** A Title Insurance Policy is not qualified by "the authenticity of the title documents obtained." What this means is that if an innocent person acquires an interest in a property from someone who is acting in a fraudulent manner (for example a false vendor), they can be compensated. The lender is also insured in the event of lawyer or third party fraud.
- 3. Errors in Public Records.** While this is not as relevant in British Columbia given our Torrens System, Title Insurance does cover errors in public records, including incorrect information on Tax Certificates.
